Winemakers Tasting Notes

We believe Alexandra Riesling combines the best attributes of the old and new world Riesling regions, creating a wonderfully fresh and zesty wine full of lemon, lime and Alexandra minerality. We balance these characters with moderate to high acidity, making a crisp wine with a beautifully clean finish in an off dry style. We like our Riesling with just a hint of residual sugar to balance the acidity, providing a complete Riesling experience for lovers of this variety. This wine is ideal as an aperitif or a superb match with Pacific Asian flavours.

Winemaking Notes

We destemmed, crushed and loaded a small amount of Riesling grapes into a tank press. We pressed the juice into stainless steel vats for fermentation. At the conclusion of primary fermentation, the wine was lightly sterile filtered and stabilized for bottling. The winemaking style is in sync with our overall philosophy of non-intervention by simply allowing our terroir to show. The quality of the grapes we harvest from our work in the vineyards, allows for this very simple approach to our winemaking.
